

Medical Oncologist

Regular Full Time (1.0 FTE)

BC Cancer – Abbotsford Centre
Abbotsford, BC

BC Cancer - Abbotsford is committed to excellence in clinical care and is focused on developing academic excellence in a provincial cancer care environment. BC Cancer's population-based model and resultant databases provide outstanding opportunities for outcome-based research. Abbotsford Centre participates actively in several clinical trials groups. BC Cancer provides comprehensive cancer control for the people of British Columbia.

As a Medical Oncologist you will use your extensive experience and qualifications to provide oncology consultation, patient care, teaching, and research. You have obtained or are working towards Fellowship standing in the Royal College of Physicians & Surgeons of Canada in Internal Medicine, along with a certificate of Special Competence in Medical Oncology.

You must also be eligible for licensing with the College of Physicians & Surgeons of British Columbia and meet the requirements of credentialing by the Professional Advisory Committee of BC Cancer. In addition, you should be eligible for a clinical appointment in the Division of Medical Oncology in the Department of Medicine at the University of British Columbia. You **must** be eligible for a valid license to practice medicine in Canada to apply.

Applications, accompanied by a cover letter, detailed curriculum vitae, and the name, title, rank and contact information of 3 referees should be directed to:

Paul Galbraith MD

Head of Medical oncology

BC Cancer Abbotsford Center

Email: pgalbraith@bccancer.bc.ca

Applications will be reviewed immediately and the positions will remain open until it is filled.

For more information about BC Cancer, please visit the website at: www.bccancer.bc.ca

BC Cancer is committed to employment equity and hires on the basis of merit. We recognize that our ability to provide the best care for our diverse patient populations relies on a rich diversity of skills, knowledge, background and experience, and value a safe, inclusive and welcoming environment. We encourage all qualified applicants to apply; however, Canadian citizens and permanent residents of Canada will be given priority.

BC Cancer is committed to reducing the incidence of cancer, reducing the mortality from cancer, and improving the quality of life of those living with cancer. BC Cancer provides a comprehensive cancer control program for the people of British Columbia in partnership with regional health authorities to deliver a range of cancer services, which include prevention, screening and early

detection, diagnosis and treatment, research, education, supportive care, rehabilitation and palliative care. It operates six regional cancer centres in Surrey, Kelowna, Vancouver, Victoria, Abbotsford and Prince George, along with two research centres that conduct research into the causes and cures for cancer.

BC Cancer is part of the **Provincial Health Services Authority (PHSA)** which plans, manages and evaluates specialty and province-wide health care services across BC. ***PHSA embodies values that reflect a commitment to excellence. These include: Respect people • Be compassionate • Dare to innovate • Cultivate partnerships • Serve with purpose.***

The PHSA is committed to employment equity and diversity and hires on the basis of merit. We welcome applications from all qualified individuals, including visible minority group members, women, Aboriginal persons, persons with disabilities, persons of any sexual orientation or gender identity. Citizens and permanent residents of Canada will be given priority.

For more information on all that the PHSA has to offer, please visit: <http://jobs.phsa.ca>
