

Humber River Hospital. Lighting New Ways In Healthcare.

Humber River Hospital (HRH) is one of Canada's largest acute care hospitals, fully digital, and serving a diverse catchment area of more than 850,000 people in the northwest Greater Toronto Area. HRH operates 722 acute inpatient beds with 3,400 staff, approximately 700 physicians, and over 1,000 volunteers. HRH currently includes the Wilson site, a 656-bed full service acute care facility that opened in 2015, and the Finch and Church sites, known as the "Reactivation Centres" (RCC). The RCCs represent a unique partnership among multiple hospitals in the GTA with a focus on high quality patient recovery. A 356-bed long-term care facility "Humber Meadows" is currently under construction at the Finch Avenue site.

Our vision of Exceptional Care, Healthier Community and our focus on equity and inclusivity is something we share with our partners at the North Western Toronto Ontario Health Team. As Canada's first digital hospital and home of the first Patient Care Digital Command Centre, a commitment to innovation, research, and academic excellence remains at the core of our organization. We look forward to further development of these core elements through our membership in the Toronto Academic Health Sciences Network (TAHSN).

As an associate member of TAHSN, HRH provides many academic opportunities to all professions. We are committed to establishing a Family Practice Teaching Unit in partnership with the University of Toronto within the year, further strengthening our commitment to academia. The Hospital has formal affiliations with medical schools at University of Toronto and Queen's University.

HRH has a strong emphasis on quality, safety, and the patient and family experience. In 2018, HRH received Exemplary Standing from Accreditation Canada. HRH also recently received the Studer Group Award for Excellence in Canadian Patient Care and the Canadian Council of Health Service Executives Patient Safety Award.

The Hospital has developed short and long-term objectives outlined in the 2021-23 Strategic Plan with a core direction of advancing HRH as a community academic hospital. Examples include:

- Growing targeted specialty programs that are responsive to the needs of our community
- Establishing an HRH Digital Healthcare Research Institute
- Continuing to shepherd the development of a long-term care facility
- Establishing a comprehensive Medical Education Program

EXCELLENT CAREER OPPORTUNITY

Right now we are looking for a:

MEDICAL ONCOLOGIST (LOCUM TENENS STAFF)

HRH is seeking a Medical Oncologist to cover a three month leave beginning **June 2023 to September 2023** within the Division of Hematology and Oncology. The successful candidate will have completed relevant certifications from the Royal College of Physicians & Surgeons of Canada and is a member of, or is eligible for membership with, the College of Physicians & Surgeons of Ontario.

As an Oncologist at HRH, you will use your demonstrated leadership skills and clinical excellence to contribute to a dynamic group of six oncologists and two hematologists. You will be expected to see new referrals in the Cancer Care Clinic (three clinics per week) and participate in our oncology call service, approximately every 7th week, as well as coverage of benign hematology.

We encourage all qualified applicants to **apply in confidence** by forwarding a cover letter and CV by **May 31, 2023** to:

Dr. Susan Tory
Chief of Medicine
Humber River Hospital
1235 Wilson Avenue
Toronto, ON M3M 0B2

Send via E-mail: Story@hrh.ca

Interested candidates who qualify will be contacted and may be asked to attend a pre-application interview. Selected candidates will be invited to submit a formal application for these positions. The hospital reserves the right not to appoint anyone to these positions.
