

Best of Precision Oncology 2024

November 15, 2024 | Virtual Event

Chaired by **Dr. Heather McArthur** and **Dr. Sumanta Pal**, Best of Precision Oncology will profile key foundational topics as well as emerging strategies associated with precision oncology. Attendees will be able to optimize diagnosis, treatment selection, and evidence-based management of patients with cancer using emerging diagnostic technologies to personalize and tailor therapies. The event will offer specific insights on precision oncology advances in key tumor areas including breast cancer, hematology, gastrointestinal cancer, genitourinary cancer, lung cancer, melanoma.

Learning Objectives

1. State of the art tools for early detection of disease & monitoring of molecularly targeted therapies.
2. Precision oncology biomarkers to guide therapeutic decision-making.
3. Precision therapies and understanding the pathways to guide new therapies.

Registration

Physicians

Nurses/Pharmacists/
Allied Healthcare Providers/
Residents/Trainees
