

# BEST OF Precision and Immuno-Oncology CONFERENCE 2025

Friday, October 3, 2025 | Virtual

Join co-chairs **Dr. Heather McArthur** and **Dr. Marcus Butler** at The Best of Precision and Immuno-Oncology Conference for a comprehensive exploration of the latest data in precision targeted therapies and immuno-oncology. This premier scientific event will empower clinicians to enhance diagnostic accuracy, refine treatment selection, and apply new evidence-based strategies to manage cancer patients. Leveraging emerging immuno-oncology therapies and the latest diagnostic technologies, attendees will gain the tools to personalize and tailor their therapies to optimize care. Sessions will cover a variety of important topics examining advances that pertain to clinical practice, adverse event management and novel therapies.

## Learning Objectives

1. Assess precision targeted therapies and immunological interventions for personalized cancer treatment.
2. Analyze patient selection strategies and management of adverse events in precision and immuno-oncology.
3. Apply evidence-based diagnostic and therapeutic approaches to optimize patient care.
